Education

B.Tech Information Technology - Business Informatics

Indian Institute of Information Technology, Allahabad

📅 July 2019 - May 2023

Overall CGPA 7.98

12th CBSE Board

Gyan Ganga International Academy, Bhopal

Percentage 95.8

10th CBSE Board

St. Joseph's co-ed school, Bhopal

CGPA 10/10

Work Experience

Application Developer Intern

Oracle

📅 January 2022 - June 2022

- Worked with OSCS (Open Source Compliance Services) team, which generates and manages the vulnerability reports of client projects, and tells them what all artifacts that they have used are how much vulnerable.
- Designed and developed an application solution which shows the artifact details along with a feature to file any changes. The data was being fetched from OSCS database using APIs.
- Generated scan reports using automation tools.
- Developed a solution, for onboarding new users and/or managing the projects and entitlements of existing users on SCQS (Sonarqube Code Quality Service), which previously was being done through long list of mailings.
- Worked on updating the artifact details in the database for which an automation could not be curated.
